We at [Santa Monica Dental](https://www.uniqueyellowpages.com/app/detail/santa-monica-dental-santa-monica-5571) believe that dental implants are a potent solution for the restoration of your smile. However, their effectiveness is reliant upon the extent to which you maintain them. Dental implants are a durable solution for tooth loss; however, they necessitate appropriate maintenance, as with any dental procedure. An implant may eventually lose its attachment to the bone, even after it has successfully fused with it.
